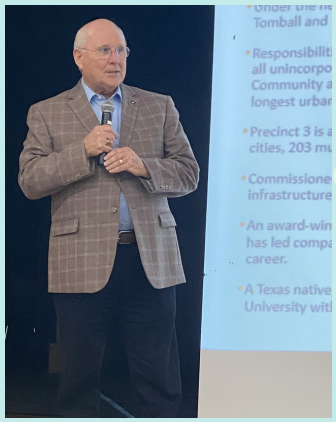
POTPOUORRI - DECEMBER 2022

WATER CONTROL AND IMPROVEMENT DISTRICT 110

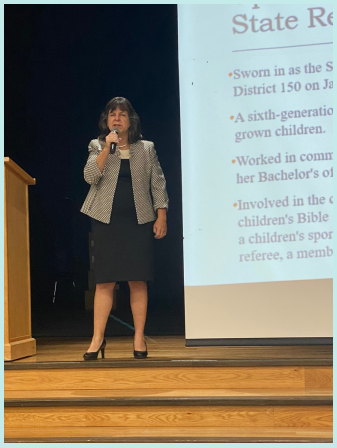
PROPOSED REGIONAL DRAINAGE PROJECT WITH HARRIS COUNTY FLOOD CONTROL

WCID110 hosted a Townhall Meeting on October 26, 2022, to present information concerning a proposed Regional Drainage Project that will be located on the East side of IH-45, south of Cypresswood Drive and north of FM1960. Attending and speaking at the meeting were State Representative Valoree Swanson, House District 150, Commissioner Tom Ramsey, Harris County Precinct 3, Jonathan St. Romain with the Harris County Flood Control District, John Davis, Langford Engineering, Inc., and Vanessa Sommer and Tom Dowdy, Directors with WCID 110.



Tom Ramsey, Commissioner Precinct 3

The proposed site for the regional drainage project is undeveloped and owned by the Harris County Flood Control District ("Flood Control") and Harris County. It is an ideal location to construct regional drainage facilities to mitigate flooding along Cypress Creek on the East and West sides of IH-45. This presents an excellent opportunity for immediate action to mitigate flooding in this area.



Valoree Swanson, State Representative

Currently, WCID 110 is negotiating an interlocal partnership agreement with Flood Control to establish a plan for the implementation of this Regional Drainage Project. Flood Control has indicated a willingness to commit $6,000,000 to this Regional Drainage Project. A pledge of $6,000,000 from Flood Control will require $6,000,000 in matching funds from other benefitted entities, thereby establishing funding of $12,000,000 for this Regional Drainage Project. WCID 110 is in a position to kick start this Regional Drainage Project by committing $500,000 in matching funds, with Flood Control committing $500,000, which $1,000,000 will pay for Phase I of the Regional Drainage Project, which is preparation of the preliminary engineering report to be performed by Flood Control for this Regional Drainage Project. The remaining funds of $11,000,000 ($5,500,000 from Flood Control and $5,500,000 in local matching funds) will be used for Phase II of the Regional Drainage Project, which will be the initial construction of the Regional Drainage Project. WCID 110 is in the process of exploring options to obtain the $5,500,000 in matching funds. Options include federal, state, and local assistance. No new taxing entity or additional layer of government will be created to fund the Regional Drainage Project.

Jonathan St. Romain,
Harris County Flood Control

Information presented about this Regional Drainage Project can be found on the WCID 110 website (www.wcid110.com) and an article was also posted in the most recent Community Impact publication.

Additional information will be provided as WCID 110 moves forward on this Regional Drainage Project over the next several months.

What's Happening December 2022

Angel Trees
December 1 - 16

FOSRC Clubhouse
Trees for local animal shelter and for community families.

Teacher and Student School Supply Drive
December 5 - 30

Benefitting Lemm and McNabb Elementary Schools.

Donation boxes in FOSRC Clubhouse.

Rivera Tennis Holiday Adult Celebration
Friday, Dec. 9

Starts at 6:30 p.m.

All levels welcome.
$20 white elephant gift exchange is optional.

Cookie Decorating at the Clubhouse
Saturday, Dec. 10

11 a.m. - 2 p.m.

Residents of WCID110 and FOSRC members.
Limit 1 guest/ person.

Rivera Tennis Winter Tennis Camps
Dec. 19-23 and Dec. 26-30

Adults and Junrios
9 a.m. - 11 a.m.
Weekly rate: $120
Daily rate: $30
Elite Players
9 a.m. - 12 p.m.
Weekly rate: $150
Daily rate: $40
