Methods Used for Canvassing Taxpayers and the District

Harris County W.C. & I. D. No. 110 has been audited, physically and virtually by Revenue Management Services. The Date range of the audit includes, but is not limited to, business and allocation activity from January 1, 2011-Present.

Each business is inspected, and trends are formulated utilizing the State-provided reports and allocation amounts. Individual business allocations are confidential. RMS utilizes public information along with State databases to review taxpayer activity as well as sales tax remittance schedules and frequency. If it is determined a business is non-compliant, reports are provided to the State Comptroller of Public Accounts. Recovery time ranges from not less than one month, and up to six months.

Businesses do not necessarily need to be currently operational to recover funds deemed receivable by the District. Additionally, if funds were allocated to another Jurisdiction in error, they may be removed from that Jurisdiction's future receipts until the full amount is repaid.

While performing the audit, Revenue Management Services noted several outlets are under construction. There are no current permit activation date(s) for the locations being constructed. Once new businesses open, RMS will review the permit information and confirm that sales taxes are being allocated correctly.

THIS REPORT DOES NOT CONTAIN CONFIDENTIAL INFORMATION
