- ⇒ RECYCLE NO-NO TAGS - 3
- ⇒ Recycle CAN'S & CAN'TS - 4
- ⇒ E-WASTE EVENT!!! - 5
- ⇒ Recycle News - 6 - 9
- ⇒ Clear Bags Only - 10
- ⇒ Cowboy Jack - 11

How important is it to recycle? Well, we are dedicating this entire newsletter to the cause! If you did not already know, when you sign up for a water & sewer account in WCID110, it also includes TRASH & RECYCLE service.

After you sign up for water, you can bring your paperwork or a bill to the WCID110 Main Office and pick up a free recycle tote container (additional or replacements are \$15 each). You may also pick up a free recycle sticker to place on your own recycle dedicated container, or you can also purchase a 50 gallon recycle roller can for \$75 each (this is our cost, we do not mark them up for profit).

For many years WCID110 only had garbage collection, but at the urging of many residents decided to add recycle collection too. There are currently about 2400 residential homes in 110 and only about 800 to 1000 are putting out recycle each month. We would LOVE to see all 2400 homes doing recycle!

Some excuses (pre-covid) were that all the recycle goes to China and for a period of time China stopped accepting recycle material so it was literally going back to the landfill. **TIMES HAVE CHANGES!** There have been several U.S. recycle centers that have come on line in the last year or so. WCID110 recycle material goes **DIRECTLY** to the local recycle center for processing and some of the reprocessed materials recycled are actually back on shelves as new products within a week! The turn-around is very short and productive.

We would **HIGHLY** encourage all of our residents to recycle every week! The recycle trucks run every Saturday, but are separate from the garbage collection by Best Trash. Garbage collection runs every Wednesday and every Saturday.

# **WATER & SEWER- [www.facebook.com/hcwcid110](http://www.facebook.com/hcwcid110) [www.facebook.com/wcid110recreation](http://www.facebook.com/wcid110recreation)**

**Bags are not required for recycling. IF bags are used, CLEAR BAGS are required by the recycling center for safety reasons.**

For more information, contact the Clubhouse Office at: 281-353-0998

## Residential Recycling and Refuse of Texas

### New campaign to educate residents on what is actually recyclable.

The tags shown below are being left with residents to help them understand what is not acceptable in their recycling. **Beginning April 1<sup>st</sup>, RRRTX will no longer pick up recycling that is left in bags that are not clear.** The recycling centers automatically reject these bags and send them to landfills due to safety. There has been a significant amount of medical waste, including syringes, in recycling that has presented an extreme risk for crews that sort recycling material. The ability to see what is in the bags is crucial to the safety of the crews working at the recycling centers. We are more than happy to offer tours to board members that wish to visit a center.

The average neighborhood that recycles tends to have 25 to 30 percent contamination in their recycling. That contamination is then sent to landfills. As our crews educate residents by tagging contamination and non-recyclable items, we are watching that contamination percentage significantly shrink. We are in the process of working with our recycling center to grade our loads for communities that are interested in becoming a certified "Green" community. We are also identifying the criteria that must be met to achieve this status. We've had several communities that have shown interest in becoming a certified green community. Your community seems to be well educated with regards to recycling. We believe your community could already be close to meeting this criteria. With a little bit more coaching and with our crews monitoring a bit closer, we believe we could get this down to 10 percent or less contamination.

# OMG! RECYCLE DID NOT PICK UP!! THIS LITTLE YELLOW TAG TELLS YOU WHY

## Residential Refuse & Recycling of Texas

### Items that **CANNOT** be recycled in your cart:

Air filters  
Appliances  
Batteries  
Computers/electronics  
Diapers  
Fabric/clothes  
Food/pizza boxes  
Hangers  
Hazardous materials paint,oil  
Light bulbs  
Medical waste  
Paper plates  
Paper towels/napkins  
Pottery/ceramics  
Scrap metal  
Styrofoam (all types)  
Wood  
Yard waste/compost items

#### Guidelines for Pickup

ONLY USE CLEAR BAGS or RECYCLING CONTAINERS Items in black or white trash bags will not be picked up  
Have items out by 6:30 AM  
Place recycling on opposite side of driveway from trash  
If you move, please leave the recycling container at the home

*Reuse*

*Reduce*

*Recycle*

**Paper** – magazines, newspapers, copy paper, phone books, junk mail, etc.

**Plastic #1 through #7 (NO Styrofoam)**– juice, water, milk, soda, detergent, cleaners, RX bottles. (If in doubt, check bottom of container for recycling emblem and number in center)

**Aluminum** – any type of soda beer or drink can, etc. **(PLEASE RINSE OUT)**

**Tin Cans** – any food can, pet food can, etc. (no aerosol containers) **(PLEASE RINSE OUT)**

**Cardboard** – boxes, cereal, food, detergent, pet food, etc. (No grease stained boxes or containers with food)

**Glass** – any color glass. Must be pure glass. Cannot be ceramic, mirror, pottery stoneware, or china type items.

**Thin Plastics** – bags from grocery, sleeve on newspaper, wrapping on dry cleaning – bags MUST be tied together and put into a recycling bag. **NO “LOOSE” plastic grocery bags will be picked up.**

### Items that CANNOT be recycled in your cart

Light Bulbs

Batteries

Fabric

Diapers

Pottery Ceramics

Air Filters

Computers / Electronics

Paper Plates

Napkins / Paper Towels

Hangers

Wood

Food

Scrap Metal

Styrofoam

COVID-19 Tests

Syringes / Med Waste

Yard Waste

Hazardous Materials

## Electronic Recycling Pickup

### WCID 110 E-Waste Recycling Event

Provided by: Residential Recycling and Refuse of Texas

Date: Saturday May 7th, 2022

10:00 am – 12:00 pm

Location: WCID 110  
627 Cypress Oaks Dr.  
Spring, TX 77388

#### Items Accepted:

Personal computers	Hubs and routers
<b>TUBE TV's (\$25.00 disposal Fee)</b>	Tape drives
Keyboards, mouse, and speakers	Printers, copiers, and plotters
Cameras & Video Recorders	Fax machines and Typewriters
Switches & routers	Electronic Medical Devices
Cords & cables	PDA's
Game consoles	Electric tools
Small kitchen appliances	General household electrical items
Computer monitors including: LCD, LED, Plasma (no charge)	Phone systems
Laptops	Cell phones and office phones
Hard drives	Toner cartridges
Car batteries	Holiday electronic decorations
Rechargeable batteries	Power tools
Memory chips	Electronic toys
	PA's and microphones

**Tube TV's accepted – with fee of \$25.00 each for disposal**

**CRT Monitors accepted – with fee of \$10.00 each for disposal**

**\*\*\*No charge to dispose of Flat Panel TV's or Monitors\*\*\***

#### Items Not Accepted

**Light bulbs - Major appliances - Paint - Aerosol Containers Chemicals -  
Medical Waste - Hazardous Waste**

# Recycling Times

## Your Recycling Life Cycle

Once Residential Recycling and Refuse of Texas picks up your recycling, it typically takes five days or less for most of your recycling to be processed and made into new products for consumers right here in the United States. That cardboard you put out for recycling last week might already contain the next item being shipped to your home!

## Recycling Facts

Newspapers can take 5 + years to decompose in a landfill.

Recycling 1 ton of paper saves 17 trees

Plastic can be recycled over and over again without losing its quality

Plastic accounts for the largest "litter" group in America

Glass, buried in a landfill, will not decompose. It will still be glass for at least one thousand years.

Aluminum cans take 80 + years to breakdown when buried in a landfill

## RESIDENTIAL Recycling & Refuse of Texas

*Whether therefore ye eat, or drink, or whatsoever ye do, do all to the glory of God. 1 Cor. 10:31*

Recycling Education with Cowboy Jack **P.3**

Where to Find Recycling Supplies **P.4**

## Recycling is Changing...

Residential Recycling & Refuse of Texas has started a new campaign to educate their customers on which waste items are actually recyclable, how to prepare their recycling, and what to expect when they place something out for pick up that is not acceptable by our crews.

You may be wondering why educating our customers is so important to us. Well, to put it simply, it's because we do recycling right. The integrity of our recycling program is of great importance to our staff, the recycling facilities we partner with, and most of all to our environment. The better our customers recycle; the less waste ends up in local landfills.

The average neighborhood that recycles tends to have 25 to 30 percent contamination in their recycling. That contamination is then sent to landfills where it will remain until it breaks

down in 20, 80, or as many as 500 years later. Some items will never break down, which means existing landfills will fill up faster and new landfills will have to be created.

Reducing the amount of waste entering landfills should be important to everyone. If you are currently one of our recycling customers, we encourage you to read through this newsletter to know what to expect for your recycling services. If you are not one of our recycling customers, then we hope you are a good steward of our environment and are taking your recyclable waste items to a local recycling facility in your area.

Should you ever need any assistance with your recycling preparation, or wish to inquire about adding recycling to your trash subscription, please reach out to us at [info@rrrtx.net](mailto:info@rrrtx.net). Our team is here to help you.

## Disposing of COVID-19 Rapid Tests – Per TCEQ

TCEQ rules regulates medical waste from health care-related facilities as specified in TAC 25 §1.134(b) as “special waste”.

Medical waste generated within a household is regarded as municipal solid waste and may be disposed of with routine trash.

Authorized medical waste transporters and treatment facilities also have the option to accept medical like waste generated from non-health care related facilities in accordance with 30 TAC 326.61 (h). Please contact the treatment facility to inquire about their waste acceptance plan prior transport.

If households choose to dispose of their household medical-like waste, we recommend the use of best management practices when disinfecting areas and handling and collecting this waste. Households can also follow TCEQ’s guidance for Household Sharps, and similar disposal methods can be used for COVID-19 rapid test kits.

Furthermore, medical waste generated from health-care related facilities, or from a household, should not be disposed of as recycling.

**Effective April 1<sup>st</sup>, 2022, customers that take part in the Recycling Program with Residential Recycling & Refuse of Texas, and choose to bag their items, will be required to use clear or see-through recycle bags.**

To some, this may seem like an unreasonable request. To the crews that pick up the recycling and those that handle it at the recycling facility, this requirement might prevent serious injuries and infection.

In addition to safety, see-through recycling bags allow our crews and the recycling facility personnel to determine if there are any contaminants in the recyclables.

Recyclables are not required to be bagged; however, to prevent litter from scattering across your neighborhood on recycling day, it is best to bag all light weight items; such as paper, thin plastics, wrappers, and grocery bags.

## Critical Information Effective April 1<sup>st</sup>, 2022

If residents use bags to dispose of their recycling, they **MUST** be see-through plastic recycling bags.

Any recyclables placed out in black or white trash bags will not be accepted by recycling personnel on our route or at the recycling facilities. Black or white trash bags will be tagged by our crews. Any black or white trash bags that make it to the recycling facility will be sent to the landfill by their personnel.

**“Bags are not required for recycling. If bags are used, see-through recycle bags are required by the recycling center for safety reasons.”**

Our crews will use yellow recycling tags to notify you of any issues with your recyclables. Those tags include a list of items that are not acceptable as recycling. If you receive one of those tags, please read it in detail and make adjustments to your recycling to ensure a successful pick up on your subsequent recycling days.

# WHERE DOES RECYCLING GO?

## Recycling Education with Cowboy Jack

Our good friend, Cowboy Jack, has done two training videos with RRRTX to help teach kids about recycling.

We also offer schools, in the communities that we service, the opportunity to have Cowboy Jack come out and teach your kids about recycling.

Questions? Call RRRTX at (346) 248-5222 or email @ [info@rrrtx.net](mailto:info@rrrtx.net)

Episode 1: Learn About Recycling & Recycling Trucks <https://youtu.be/dlcUZRfU2CQ>

In this episode, Carleen, the owner of RRRTX, educates local school children about the benefits of REDUCE – REUSE – RECYCLE.

Episode 2: Where Does Recycling Go for Kids <https://youtu.be/S0-ZKIIEYO8>

Dive into what happens to your recycling once it gets picked up from your bins. In this video, Cowboy Jack

tours FCC Environmental Services, the facility that handles recycling for RRRTX and the City of Houston.

Cowboy Jack is the new Mr. Rogers. He makes fun and educational videos for kids. Each week, Cowboy Jack hosts a virtual field trip to a new location or experience where children learn and play as they go. Every adventure is packed with new educational experiences for kids of all ages... even adults!

[Cowboy Jack's YouTube channel](#) has 11 million views since he started in Jan, 2021.

## Recycling Preparation Tips

**Remove all styrofoam from cardboard boxes and packaging.**

**Breakdown cardboard boxes and bundle inside another box.**

**Remove all food or organic particles from recyclables and/or your recycling bin/cart.**

**Rinse all containers that contained food or liquids.**

**Leave caps on plastic bottles.**

**Put thin plastic bags and wrappers inside another bag.**

**Put shredded or loose papers inside a clear or see-through recycling bag**

**On windy days, place your light weight recyclables in clear or see-through recycling bags.**

**Put your recyclables in a container with a recycling emblem or sticker**

## RECYCLABLE...

### Paper

Magazines, newspapers, copy paper, phone books, junk mail, etc.

### Plastic #1–7 (NO STYROFOAM)

Plastic bottles, cups, etc. (if in doubt, check the bottom of the container for the recycling emblem and number)

### Aluminum

Any type of soda, beer, or drink can. (Please rinse out.)

### Tin Cans

Any food can, pet food can, etc. (No aerosol containers)

### Cardboard

Any cardboard box. (No grease stained boxes or containers with food)

### Glass

Any color of PURE glass.

### Thin Plastics

Bags from the grocery store, newspaper sleeves, plastic wrappers. (MUST be inside another bag. NO LOOSE BAGS)

## NOT RECYCLABLE...

Aerosol containers

Air Filters

Appliances

Batteries

Clothes Hangers

Computers/electronics

Diapers

Fabric/clothes

Food/Pizza Boxes (with food or grease)

Hazardous Materials

Light Bulbs

Medical waste

Paper plates

Paper towels/napkins

Pottery/ceramics

Scrap Metal

Styrofoam (all types)

Wood

Yard waste/compost items

# Recycling Identified

## Stickers & Containers

ALL containers placed out for recycling MUST be identified as recycling. You can purchase a recycling container from most hardware stores or from Residential Recycling, which will be delivered to you. If your recycling container does not have the recycling logo on it, contact us at [info@rrrtx.net](mailto:info@rrrtx.net) and we will send you some stickers via the US mail.
